

**Pharmaceuticals,  
Food & Cosmetics**  
Intelligent packaging solutions by Hugo Beck

flowpack X-D

## Both far-reaching and wide-ranging

Whether it's an entry-level machine or a high-end device, whether it's a series machine or an individually tailored solution: Hugo Beck is one of the leading global manufacturers of film packaging machines. Flowpack, bagging or shrink-wrapped packaging; flexibly deployable feeders and peripheral devices – we offer unbeatably comprehensive services in the horizontal packaging segment. The far-reaching and at the same time wide-ranging know-how of Hugo Beck is also reflected in our three business segments: Pharmaceuticals, Food and Cosmetics, Print and Paper, and finally Household, Construction & more.

## Safety on demand

Hugo Beck complies with especially stringent specifications in the business segment of pharmaceuticals, food and cosmetics, where reliability, imperviousness and economic efficiency play a central role. These highly demanding sectors furthermore impose high demands with regards to engineering, quality assurance and documentation.

Hugo Beck is the right partner here: Our experienced, highly innovative engineering team quickly finds the perfect solution for each customer. One that not only guarantees an excellent link to existing systems, but which also ensures reliable reproducibility and complete traceability.

## Shrink-wrapping for great results

Our tried and tested shrink-wrapping is also in demand in the pharmaceuticals, food and cosmetics segments. Products such as boxes of chocolates, ready-made sauces, deodorants or shower gels are thus shrink-wrapped safely and user-friendly in film thanks to our packaging machines. Packaging for medical technology is also manufactured at Hugo Beck film packaging facilities— either shrink-wrapped in bundles or as a flowpack with air tight, MAP or medical paperwork.

## Advantage fin seals

Packaging with characteristic fin seals plays a particularly important role in this business segment. They are manufactured using flowpack machines, excel thanks to their exceptional imperviousness and can even be treated with gas. Flowpack packaging additionally scores plus points with regards to visuals, an aspect that is especially vital for foodstuffs and cosmetics. Their high stability for example enables standing or hanging commercial presentations.

### Pharmaceuticals

### Food

### Cosmetics

Flowpack packaging

Side sealing

**Flowpack X**

For air tight packaging with film feeding from above or below; Length from 30mm; Width 10 – 330mm; Output up to 18,000 cycles / hour

**Modern multitaskers**

The long-lasting and low-maintenance packaging machines of Hugo Beck are modern multitaskers: they weld a variety of products in film in a multitude of ways. side sealing, fin seal, cut welding seam, overlapping, form sealing, display packaging, re-sealable sealing etc. – various packaging types can be flexibly combined with one another. Innovative fusions thanks to our modular design, cunningly linked downstream and upstream production units, and our intelligent drive and control technology. Hugo Beck machines are controlled by state-of-the-art servo drives – thereby making it possible to process various lengths without wear parts. Operation is remarkably convenient and simple thanks to the innovative co-pilot function and a large touchscreen.

**Technical data depending on machine and features**

- **flexo X** for shrink-wrapping: Length from 45mm; Width 25 – 450mm; Height max. 250mm; Output up to 6,000 cycles / hour
- **Banderoling machine BP 800** for bundle packaging: Length from 80mm; Width max. 700mm; Height max. 400mm; Output up to 2,100 cycles / hour
- **Feeders:** various feeder systems for adding package leaflets, sachets, pharmaceutical accessories, DIN A7 to DIN A4 and more, output up to 60,000 cycles / hour
- Further machines upon request

Shrink tunnel SL 5015/23

**servo X** (here in stainless steel)  
For bagging or shrink-wrapping; Length from 50mm; Width 20 – 450mm; Height up to 250mm; Output up to 15,000 cycles / hour

## Small price, big possibilities

In the packaging industry, Hugo Beck is synonymous with tailor-made quality and an outstanding strength of innovation. And it is available at low cost. Modern, fast, tailor-made: Our form fill and seal machine flexo X is a typical Hugo Beck product – and is available at an attractive entry-level price. With an output range of up to 7,200 cycles/hour, flowpack X-e not only offers solid and flexible basic features, it also includes all the features of the larger models such as co-pilot, servo drive control or a user-friendly path control.
